DETAILED ACTION

1. This action is responsive to amendment filed 12/13/06.
2. Claims 7-10, 13, 14, 17, 18, 20-24, 31-61 are pending in the application.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 7-10, 13, 14, 18, 20-24, 31-61 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims appear to be directed to an abstract idea rather than a practical application of the idea. These claims do not result in a physical transformation nor does it appear to provide a useful, concrete, and tangible result. Specifically, it does not appear to produce a tangible result because merely "simulating", "automatically stripping", "emulating" are nothing more than thoughts or computations within a processor. It fails to use or make available for use the result of the method to enable its functionality and usefulness to be realized.
